## **Observations and Action Taken Report**

**Quantitatively the feedback instils confidence in the functioning of the University, esp. in areas of accessibility to teachers; teaching material; coverage of the syllabus; the conduct of the classes. However, the availability of material through the LMS might need a bit more attention.**

**The fact that this feedback is based on a smaller sample- is relevant as the results may vary with a bigger sample.**

**The need therefore is to keep working on the above areas, while trying to obtain a greater sample size for feedback.**

**To this end a it is proposed that the feedback can collected :**

**(i) twice in the semester**

**(ii) filling of the feedback form may linked to the examination form , as prerequisite.**

**(iii) a few questions on the appropriateness of the material provided on LMS and other digital mediums- and the questions in the internal/final evaluation may also be introduced.**

**The qualitatively feedback offers hints at areas of improvement – like – provision of newer books ; greater access of library facilities; better reprographic facilities; need for improvement in wifi & internet facilities.**

**The written comments also highlight areas of concern wherein the upkeep of toilets/common rooms/ basic backup electricity facilities**

etc is mentioned - the housekeeping/estate dept. needs improvement.

A few students also expect the depository of Online content - something that is yet to reach the desired level from the University's point of view too ---hence continuous improvement is needed there.

The Canteen/refreshment facilities need attention - as it has been highlighted by a quite a few students.
