For

ESTABLISHMENT OF VERMICOMPOSTING UNIT

Vermicompost Unit has been built in the back yard of the Department of Zoology, Nehru Gram Bharati (Deemed to be University), Prayagraj. The total size of our NGBU Vermicomposting unit is 15x14 Ft. which is divided equally in six chambers. The unit has been established with the help technical expertise of the Bioved Research society, Prayagraj.

Dr. B.K. Dwivedi has appointed Dr. S.K. Yadav, Scientist, Bioved to provided technical expertise regarding establishment of vermicompost Unit. Dr. S.K. Yadav visited the Unit and site on 04.03.2022 (Friday) for providing the technical support and releasing the worms (Species- *Eisenia fetida*).
